## VISION

A prosperous and egalitarian society in which rich, healthy, and productive resources are actively managed, used sustainably, and accessed equitably by poor and marginalized communities.

## MISSION

Contribute to the impact group's sustainable resource management, climate change adaptation, food security, poverty eradication, and social justice via social mobilization, institution building, technology transfer, and multi-stakeholder collaboration.

## OBJECTIVES

Empowerment, socio-economic transformation, risk reduction, and inclusive development will be used to improve the quality of life of the impact group. The specific objectives are as follows;

- ➔ Build capacity of impact groups to identify and manage available resources, local knowledge, skill, and technology.
- ➔ Increase livelihood security of resource-poor and marginalized communities through enhanced food security, nutrition, and income generation opportunities.
- ➔ Empower, enhance and ensure institutional development of communities for conservation and sustainable management of biodiversity and ecosystem services.
- ➔ Increase advocacy skills of the target communities to ensure basic rights and participation of women, children, and other vulnerable and marginalized people.
- ➔ Increase access of the target community of basics goods and services.
- ➔ Improve adaptive capacity and resilience of vulnerable people by addressing issues of climate change.
